# NEWSLETTER

**February 1-15, 2005**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **February 1-15, 2005.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Associate Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**KEY:**

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

**NOTE:**

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, February 01, 2005</u></b>			
2004082018	Mt. Tamalpais Watershed Road and Trail Master Plan Marin Municipal Water District Corte Madera, Fairfax, Larkspur, Mill Valley, Ross, ...--Marin 1. Improve water quality and minimize sediment into the creeks and reservoirs of MMWD watershed land. 2. Reduce the impact of the road and trail network on wetlands, riparian areas, and other environmentally sensitive habitats. 3. Reduce the impact of the road and trail network on the MMWD watershed's natural ecological functions.	<b>EIR</b>	03/17/2005
2004072144	Visitor Center Parks and Recreation, Department of --Calaveras The Department of Parks and Recreation (California State Parks) proposes to construct a Visitor Center on the grounds of Calaveras Big Trees State Park. The following is a summary of the proposed work: - Construct a permanent, accessible visitor center of approximately 7000 sf; - Install a new trailhead / assembly area adjacent the proposed visitor center; - Improve the parking area to include four Americans with Disabilities Act (ADA) spaces, including one van accessible space, 79 standards spaces and three bus parking spaces; - Remove approximately four trees of no more than 30" diameter at breast height to accommodate visitor center and utility replacement; Provide utility connections to the new visitor center including water, sewer, electricity, telephone, environmental control, security / fire alarm, and telecommunications infrastructure; and - Provide low-maintenance, native plant landscaping around visitor center, over trenching areas, adjacent to pathways, and all areas disturbed by construction.	<b>FIN</b>	
2005022004	Digital Arts Facility University of California, Santa Cruz Santa Cruz--Santa Cruz The proposed project is the construction of the Digital Arts Facility and an addition to the Theater Arts complex on the UCSC campus. Both components would be constructed on land designated "Campus Core" in the campus 1988 Long Range Development Plan. The proposed site of the Digital Arts Facility is on undeveloped grassland south of the Baskin Visual Arts Complex. The Theater Arts Addition would be constructed above an existing loading dock west of the existing Experimental Theater. The project will provide a total of approximately 46,165 outside gross square feet (26,535 assignable square feet), of space to house faculty and administrative offices, laboratories and studios to serve the Division of the Arts.	<b>NOP</b>	03/02/2005
2005022005	South Yuba River Comprehensive Management Plan Parks and Recreation, Department of --Nevada Comprehensive management plan for the Lower South Yuba River in Nevada County. The Plan covers only public lands under the jurisdiction of the Bureau of Land Management, Forest Service, and the California Department of Parks and Recreation. The focus of the Plan is how to manage public land resources and uses within the planning area. The intent is to develop a shared vision in concert	<b>NOP</b>	03/02/2005

<b><u>Documents Received on Tuesday, February 01, 2005</u></b>			
2005022002	TTM 04-1007 Red Bluff, City of Red Bluff--Tehama The proposal is to subdivide one existing lot, totaling 14.6-acres into fifteen lots comprised of fourteen single family residential lots and one parcel a designated remainder. One cul-de-sac road perpendicular to South Jackson Street has been proposed for the development. Sewer and water will be supplied by municipal providers. Stormwater for the developed lots will enter drains that connect to the City stormwater system.	<b>Neg</b>	03/02/2005
2005022003	Stonehaven Subdivision Woodland, City of Woodland--Yolo Small lot subdivision for 86 units.	<b>Neg</b>	03/02/2005
2005022006	Use of Copper Aquatic Pesticides to Control Aquatic Weeds in the Water Conveyances and Reservoirs Antioch, City of Antioch--Contra Costa The use of copper to treat algae and aquatic weeds in water conveyances and reservoirs.	<b>Neg</b>	03/03/2005
2002121142	Rancho San Juan Specific Plan and Butterfly Village Project Monterey County --Monterey Rancho San Juan Specific Plan Project consists of: 1) amendments to the Monterey County General Plan; 2) amendments to the Greater Salinas Area Plan; 3) amendments to Title 21 of the Monterey County Code; 4) amending Section 19.10.070.G of Title 19 of the Monterey County Code; 5) adopting the Rancho San Juan Specific Plan to include 4,000 mixed residential units, a town center, 2.4-million SF employment center, 243,000 SF of office space, 18-hole golf course and clubhouse, open space and trail system, and public parkland; 6) adoption of a mitigation monitoring and reporting plan.  The HYH Project consists of: 1) Combined Development Permit pursuant to Rancho San Juan Specific Plan; and 2) Ordinance approving a Development Agreement.	<b>NOD</b>	
2003021009	Stenner Creek-Foothill Bridge Replacement Project ER-188-02 San Luis Obispo, City of San Luis Obispo--San Luis Obispo The City of San Luis Obispo proposes to replace the existing Foothill Boulevard bridge crossing over Stenner Creek. The existing bridge, consisting of two 13.0-foot diameter culverts, is approximately 184.0 feet long and 31.0 feet wide. The new bridge would be a free span, open bottom design of approximately 49.0 feet long and 78.0 feet wide. The project would proceed in four general phases: 1) diversion and dewatering of Stenner Creek; 2) demolition of existing bridge structure and preparation of project site; 3) construction of new bridge structure; and 4) site restoration. The proposed bridge replacement would occur in two phases: 1) demolition and construction of the southern (downstream) aspects of the bridge; and, 2) demolition and construction of the northern (upstream) aspects of the bridge.	<b>NOD</b>

2005028003	Boat Launch Host Site, Brannon Island SRA Parks and Recreation, Department of --Sacramento This project will relocate the boat launch camp host site approximately 50 feet from the existing location near the restroom building at the boat launch facility at Brannan Island State Recreation Area in order to distance the host site from the noise of a newly installed shower and restroom building. This work will involve excavating and moving a berm to accommodate the host site and trenching to extend utilities to the new location.	<b>NOE</b>	
2005028004	No Parking Signs at Nimbus Flat, Folsom Lake SRA Parks and Recreation, Department of Folsom--Sacramento This project will install six to ten "no parking" signs at locations around the parking lot at the Nimbus Flat day use area within Folsom Lake State Recreation Area. Each sign will be installed on a 4"X4" post set into holes excavated two-feet deep. The posthole locations are all immediately adjacent to existing roads or parking areas and on previously disturbed ground. No trees or shrubs will be removed or disturbed. There are no cultural resource concerns. Project will assist with enforcement of park rules.	<b>NOE</b>	
2005028005	Office of Investigative Services (OIS) Corrections, Department of Sacramento--Sacramento The California Department of Corrections, Office of Investigative Services proposes to lease approximately 25,000 square feet of office space for an OIS administrative office in Sacramento.	<b>NOE</b>	
2005028006	SAC 51, Safety Project, E.A 03-0E9801 Caltrans #3 Sacramento--Sacramento This is a safety project that proposes to remove guardrail, extend a culvert, remove 14 landscaped trees and roadside vegetation in order to create a Clear Recovery Zone along the "Marconi Curve." The CRZ will allow a safe space for drivers to recover their errant vehicles.	<b>NOE</b>	
2005028007	Anza Borrego Desert State Park, Peg Leg Acquisition General Services, Department of --San Diego The proposed project consists of an acquisition of approximately 53 acres (APN 142-140-22) of vacant land to the California Department of Parks and Recreation to ensure preservation of open space and the natural environment.	<b>NOE</b>	
2005028008	Transfer of Coverage to El Dorado County APN 15-323-20 (Arcadiacono) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 560 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>

2004111136	Olson Company Project Buena Park, City of Buena Park--Orange The proposed project provides for construction of 198 townhomes and 6.38 acres of associated open space on 14.74 acres of land, and all necessary supporting infrastructure improvements/modifications.	<b>EIR</b>	03/21/2005
2002112106	Coastal Trails Rehabilitation Project Parks and Recreation, Department of --Marin The Department of Parks and Recreation proposes to make the improvements described herein to the Lone Tree and Coastal Fire Roads in the Mount Tamalpais State Park. -Convert one-half mile of existing road to trail by narrowing the road surface. Three-tenths of a mile of Coastal Fire Road and two-tenths of a mile of Lone Tree Road will be narrowed to trail. This portion of the project would involve the mechanical excavation of road embankment and landing fill, and stabilization of excavated materials on the inboard edge of the cutbench. A narrow portion of the road cutbench would be preserved to serve as the trail bed. -Construct new trail to replace the poorly aligned portions of the existing roads that are contributing to drainage problems and erosion of the road surfaces. Approximately 2.1 miles of trail would be constructed in place of Coastal Fire Road and 2.7 miles of trail would be constructed to replace Lone Tree Fire Road. -Re-contour 3.1 miles of poorly aligned sections of the fire roads (1.6 miles of Coastal Fire Road and 1.5 miles of Lone Tree Fire Road) to pre-disturbance topography by excavating embankment fill from the roads and stabilizing excavated material on the cutbench.	<b>FIN</b>

	project description and directed City staff to process the necessary entitlements and continue negotiations based on a new pro-forma for a 772-unit project.		
2005012119	Parkerbridge Project EIR (P04-212) Sacramento, City of Sacramento--Sacramento EIR for residential development of approximately 500 low density and medium density units and parks on approximately 113 acres.	<b>NOP</b>	03/07/2005
2005022022	FHK Companies - Bel Air EIR04-001; GP04-005, Z04-012, U04-019, PM04-020 Nevada County --Nevada This development is proposed on a 20.07 acre parcel and includes the following components: 1) A General Plan Amendment and Rezone application proposing to change the land use designation and property zoning from Business Park to Community Commercial. The zoning may also include Site Performance criteria to implement site specific standards for the project. 2) A tentative parcel map proposing to divide the 20.07-acre site into 10 parcels and create a new alignment for Woodridge Court and continues the alignment of Higgins Road, which links Woodridge Court with Combie Road. Proposing Parcel 6 contains the existing wetlands on site and is intended to protect this area from commercial development. 3) A Use Permit proposing to establish a commercial shopping center on five of the 10 proposed parcels. The center proposes a 59,800 SF large retail store (proposed as a Bel-Air Market), two retail buildings (13,200 SF and 6,500 SF), and two 6,000 SF fast food restaurant buildings (with 105 seats in each). There are four proposed commercial parcels that do not have any proposed development at this time.	<b>NOP</b>	03/15/2005

	California - South Coast Division. The applicant proposes to alter the streambed and banks through the implementation of the Greystone Homes Vesting Tentative Tract 16595 development project located in the City of Yorba Linda. The development project proposes to subdivide a 28.6-acre project site into 50 single family residential lots for an achieved density of approximately 1.74 dwelling units per acre and a minimum lot size of 18,000 sf. The majority of the proposed project site is currently vacant/undeveloped land which consists of remnant structures associated with historic oil production, and existing landscape plant nursery, areas that have been recently graded, a network of dirt roads, and two disturbed riparian drainages. The proposed project will result in the fill of two on-site ephemeral drainages and conversion to an underground stormdrain system. The project shall not permanently impact more than 0.35 acre of stream channel and associated riparian habitat, consisting of mostly non-native and limited native riparian vegetation. The applicant shall mitigate for impacts by providing adequate funding to the Santa Ana River Mitigation Bank for the purchase of one acre of credit to be applied towards the creation, restoration and/or enhancement of 1.0 acre of native riparian habitat. The money shall be used only for the creation, restoration and/or enhancement of riparian habitat. Proof of payment of fees shall be submitted to the Department prior to commencing project activities. The Agreement authorizes the applicant to proceed with those parts of the project that will impact the above described streambed and bank pursuant to Fish and Game Code section 1602.

	developments would consist primarily of residential uses, totaling 1,570 dwelling units, 186 of which would be live-work units. Commercial space would include 13,000 SF of neighborhood-serving commercial uses plus 14,487 SF associated with the historic Southern Pacific 16th Street Train Station. The Main Hall of the Station between 16th and 17th Streets would be restored for reuse; the associated 16th Street Signal Tower also would be restored. At 94,479 SF Warehouse on Pine Street would be reused as lofts. Public open space, consisting of a public plaza in front of the Station's Main Hall and five pocket parks totaling 1.39 acres would be provided. In addition, 2.82 acres of private open space, which would be accessible to Project residents, would also be created. All other existing commercial and industrial floor area would be demolished.		
2005021041	Peter C. & Grace L. Wang Subdivision Monterey County Planning and Building Inspection Monterey--Monterey Vesting Tentative Map: 23 market rate parcels, 3 inclusionary parcel (6 units), 5 open space parcels, 1 common "recreation" parcel; Use Permits for a new water system, development on slopes greater than 30%, removal of protected tree resources, and development in Visually Sensitive areas, Grading of approximately 29,535 yards.	<b>NOP</b>	03/09/2005
2005022040	Parks at Southport West Sacramento, City of West Sacramento--Yolo The proposed project includes the request for a General Plan Amendment and Rezoning that would shift planned land uses on approximately 279 acres of vacant land in the Southport Business Park from industrial/business park to residential/park uses. The project also includes amendments to the existing Southport Industrial Park Planned Development #21 District text and Southport Industrial Park development agreement. Lastly, the project area is proposed to be removed from the Redevelopment Project Area.	<b>NOP</b>	03/09/2005
2005021037	O'Neill Regional Park Sewer Conversion Project Orange County Rancho Santa Margarita--Orange The proposed project involves the construction of a new wastewater collection system within O'Neill Regional Park to facilitate a conversion from the existing septic system to a municipal sanitary sewer system. The collection system is designed to convey and dispose of wastewater from fourteen wastewater generation facilities. Wastewater would be conveyed to an existing Santa Margarita Water District connection in the park for treatment. The existing septic tank and leach field systems would be abandoned in place.	<b>Neg</b>	03/09/2005
2005021038	Abraxas High School Automotive Paint Spray Booth Poway Unified School District Poway--San Diego The project entails installation and operation of an automotive spray booth on the existing campus of Abraxas Continuation High School, a 300-student continuation high school in Poway.	<b>Neg</b>	03/09/2005

<b><u>Documents Received on Tuesday, February 08, 2005</u></b>			
2005021039	West Ridgecrest Boulevard Widening from Mahan Street to China Lake Boulevard Ridgecrest, City of Ridgecrest--Kern Widening and reconstruction of 1.5 mile segment of W. Ridgecrest Blvd. from Mahan Street to China Lake Blvd (SR 178). Project includes installation of curbs and gutters, handicap ramps, sidewalks, traffic signals, undergrounding of utilities and some right-of-way acquisitions.	<b>Neg</b>	03/09/2005
2005021040	Lake Gregory Walkway Project San Bernardino County --San Bernardino The County proposes to construct a multi-purpose trail adjacent to the roadway encircling Lake Gregory which is located in the San Bernardino Mountains within the unincorporated community of Crestline. The proposed project will provide an enhanced trail system for use by pedestrians and bicyclists at the Lake Gregory Recreational Park. The trail will provide a continuous loop that encircles the park and allows non-motorized travel among the various recreational activities at the lake. The trail is designed to be handicap accessible and will also provide users access to the lake through the trail down access points at various points around the lake.	<b>Neg</b>	03/09/2005
2005022039	Foxwood Estates at Lower Springs Shasta County Redding--Shasta The applicant has resubmitted the project and revised the original plan to have 52 parcels, into the current plan to have a total of 20 parcels. First, the applicant has requested to divide the original 584 acres into three parcels. Parcel 1 would result in 64 acres, Parcel 2 would result in 178 acres, and Parcel 3 would result in a 334 acre parcel. The next request is to divide Parcel 1 into 18 lots. This would require a Zone Amendment and a General Plan Amendment on Parcel 1 from the Open Space (OS) General Plan and the Unclassified (U) zone district to the Rural Residential Building Site Minimum (RR-BSM) zone district and the Rural Residential "A" General Plan. Parcels 2 and 3 would remain as the Open Space zone district and the Open Space General Plan Designation.	<b>Neg</b>	03/09/2005
2005022041	Downtown Weed Roadway Rehabilitation Project Caltrans #2 Weed--Siskiyou The project proposes to rehabilitate portions of State Route 97, 265, and the Central and North Weed Interchange ramps on Interstate 5 within the City of Weed. The proposed project will install a signal and reconfigure the SR 97 and 265 intersection, install signals on SR 97 at the Main Street and College Street intersections, rehabilitate existing pavement, restore and upgrade drainage systems, and replace sidewalks, driveways, curbs and gutters in compliance with American Disabilities Act (ADA) where necessary.	<b>Neg</b>	03/09/2005
2005022042	Seale Court Development Shasta County --Shasta The project is a proposal to develop a residential subdivision constructed on one 13.5 acre parcel. The project includes a proposal to amend the General Plan designation from Suburban Residential to Urban Residential and to amend the zone district from One Family Residential (R1-B10) to a Planned Development (PD). The proposed project would have 69 single-family units ranging in size from	<b>Neg</b>	03/09/2005

<b><u>Documents Received on Tuesday, February 08, 2005</u></b>			
	4,500 to 5,500 square feet in size and includes the accompanying infrastructure. The proposed development will be connected to the City of Cottonwood storm water and sewer systems. City standard streetlights will provide lighting for the project.		
2005022043	State Route 89 Rock Wall Replacement Project Caltrans #3 South Lake Tahoe--El Dorado The California Department of Transportation proposes to replace a masonry parapet (rock/rubble barrier) on State Route 89 in El Dorado County. The project area is near the southern rim of Emerald Bay at Lake Tahoe. The structural integrity of the existing masonry parapet has deteriorated to a point where traditional "in-kind" maintenance repairs are no longer effective. Therefore, the replacement of the parapet will enhance the overall safety of SR 89 within the vicinity of the replacement barrier.	<b>Neg</b>	03/09/2005
2000082091	Parkway Commerce Center Richmond, City of Richmond, San Pablo--Contra Costa Subdivision of a 22.2-acre site which would ultimately lead to the development of approximately 250,000 square feet of light industrial buildings and ancillary uses. The project would include construction of an interior roadway leading from the intersection of John and Collins Avenues onto the project site along its eastern perimeter providing access to each of the building lots, 376 parking spaces, a bridge to cross Rheem Creek, improvements to Rheem Creek, a wetland mitigation area, and utility infrastructure.	<b>Oth</b>	
1996061029	Country Estates Log No. 87-08-081 San Diego County Vista--San Diego The project consists of 55 single-family residences; a recreational lot; an interior circulatory road system; and the creation of a biological open space preserve-all over an approximately 77.91 (gross) acre site in an unincorporated area of the County of San Diego. Also included in the project is necessary off-site road and sewer extensions and improvements.	<b>NOD</b>	
2002052087	San Martin Transfer Station Expansion Santa Clara County --Santa Clara 5-year interim expansion of existing solid waste transfer station to allow applicant to increase waste throughput and traffic for a period of 5-years. After which, the facility will close down and relocate to a new location. The approved project was Alternative #4 of the DEIR published July 21, 2004.	<b>NOD</b>	
2004082121	County Road 85 Bridge (22C-0083) at South Fork Oat Creek Yolo County Planning & Public Works Department --Yolo The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0513-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Yolo County Planning and Public Works Department. The project consists of replacing the existing substandard 20 feet long by 22 feet wide bridge with a single span 30 feet long by 35 feet wide bridge.	<b>NOD</b>

<b><u>Documents Received on Tuesday, February 08, 2005</u></b>			
2004101043	East Valley Water District's Well 27 Water Treatment East Valley Water District Highland--San Bernardino EVWD is proposing to install two ion exchange wellhead water treatment units at Well 27. One unit will remove nitrates, the other perchlorate. The project also includes the addition of a sodium hyperchlorite facility to disinfect water from the well. New pipelines and valves will be installed onsite and within Marshall Boulevard. The nitrate and perchlorate removal facilities will have the ability to treat up to about 800 gallons per minute (GPM) of water. The nitrate laden brine will be disposed of either in the Santa Ana Regional Interceptor (SARI Line) or possibly another industrial waste disposal facility. The used resin from the perchlorate treatment facility will be biologically regenerated, disinfected, stored, and eventually returned to the perchlorate treatment units or disposed of at a facility designated for such activities.	<b>NOD</b>	
2004122133	New Elementary School in Southern Empire Ranch, Folsom Folsom Cordova Unified School District Folsom--Sacramento Construction of a 625 pupil elementary school including classroom buildings, learning resource center, administration, multipurpose room and play fields. This MND uses the previously certified EIR for the Russell Ranch Specific Plan SCH# 1989020178.	<b>NOD</b>	
2005029021	El Segundo Power Redevelopment Project Energy Commission El Segundo--Los Angeles A 630 MW natural-gas fired power plant.	<b>NOD</b>	
2005028071	Malakoff Bear Box Installation Parks and Recreation, Department of --Nevada Install bear-proof boxes for food storage in each campsite at the Chute Hill Campground at Malakoff Diggins State Historic Park. The installation of bear-proof boxes will reduce the amount of bear disturbance that currently exists at the campground. Each bear box will be set on a concrete foundation in all thirty campsites and at the group campsite. The concrete foundations will be poured into 4' x 5' wooden forms placed in the site surface. No excavation will be necessary as all work will be restricted to the present grade. Once the concrete forms cure, the boxes will be secured on top of each concrete form. In-house crews will do all work.	<b>NOE</b>	
2005028072	Retaining Wall Replacement - 2004-0501-R2 Fish & Game #2 Lodi--San Joaquin 2004-0501-R2. Remove existing wooden retaining wall and replace with a new concrete retaining wall.	<b>NOE</b>	
2005028073	Retaining Wall Replacement - 2004-0502-R2 Fish & Game #2 Lodi--San Joaquin 2004-0502-R2. Remove existing wooden retaining wall and replace with a new concrete retaining wall.	<b>NOE</b>

<b><u>Documents Received on Tuesday, February 08, 2005</u></b>			
2005028074	Frazier Creek Water Main Crossing Fish & Game #2 --Plumas 2004-0471-R2. Install a water main pipeline across the creek six feet below grade. In addition, two boulder weirs shall be installed downstream to prevent undercutting or local flooding during high flow velocities.	NOE	
2005028075	Leasing of Existing Office Space Alcoholic Beverage Control, Department of Cerritos--Los Angeles The Department of Alcoholic Beverage Control will lease approximately 9,500 sf of office space in an existing office building in Cerritos. The proposed location is at 12750 Center Court, Suite 700, in the City of Cerritos. The space would be used as the Department's Administrative Southern Division and Special Operations Unit Offices and would constitute an expansion of the current space by approximately 500 sf.	NOE	
2005028076	Boat Ramp Removal Parks and Recreation, Department of --San Francisco Remove channel markers and other minor facilities associated with the abandoned boat ramp at Candlestick Point State Recreation Area. The project will remove ten channel marker piers, approximately 40 feet in length and embedded approximately 23-35 feet into the bay mud. Two of the piers are located approximately 2,000 feet offshore, two more are approximately 800 feet offshore, and six more are adjacent to the shore. A wooden entrance sign for the abandoned boat launch will also be removed. Project removes unnecessary and unused facilities.	NOE	
2005028097	Repair Campfire Screen and Center Parks and Recreation, Department of --Shasta Replace dilapidated photo screen, retaining wall of stage, podium and electrical wiring at the campfire center of Castle Crags State Park. All ground disturbing work will be within the footprint of the existing structure. The campfire center is used for interpretive programs at the campground.	NOE	
2005028098	Installation of Vehicle Gates at Clear Lake State Park Parks and Recreation, Department of --Lake Install 7 gates (two double and five single) across roads to control vehicle access at Clear Lake State Park. Limited excavation, 24-36 inches deep, will be necessary for installing the gates' structural components. Sector staff shall monitor the excavation of all the gate post holes, halting work immediately upon observation of any archaeological materials or potential human remains. In the unexpected event that archaeological materials or human remains are exposed by project activities, DPR shall ensure that no further disturbance occurs until the department's formal archaeological discovery provisions are completed, under the authority of a DPR-qualified archaeologist and in consultation with designated state and local authorities. Within its campgrounds, road closures are necessary to prevent access to park areas that are seasonally closed for use. In the back country, gates will control vehicle access to the park from private land.	NOE

<b><u>Documents Received on Thursday, February 10, 2005</u></b>			
2001104007	<p>South Orange County Wastewater Authority Coastal Treatment Plant Bridge U.S. Army Corps of Engineers --Orange</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0152-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Brian Peck, SOCWA. The applicant proposes to alter the streambed and banks through the proposed protection of the existing SOCWA Coastal Treatment Plant Access Bridge which spans Aliso Creek. The proposed project would consist of the construction of a sloping grouted stone grade control structure protecting the invert beneath the access road bridge over Aliso Creek. The grade control structure, which has a crest elevation at the upstream end of 8.8 m, slopes downstream at a two percent grade for 18.5 m. At the upstream end of the structure, a sloping grouted stone cutoff wall will extend to a depth of 2.4 m at a slope of 2H:1V. This upstream cutoff wall will serve to prevent undermining of the invert protection and also to protect in place the sewer outfall crossing. At the downstream end a similar cutoff wall would be constructed to the same depth at a slope of 3H:1V. The thickness of the entire grouted stone structure would be 0.6 meter. Dumped stone will be placed at the downstream end of the structure to provide scour protection. The existing grouted stone protection on the side slopes beneath the bridge would be removed and replaced with a 0.61 m bridge, the grouted stone would wrap around the abutments to protect the structure against large flood events. This portion of the structure would be backfilled to allow for planting of natural bank vegetation in the area upstream of the bridge. A 30.4 cm layer of riprap will be placed over this fill to protect it against smaller flood events. A topsoil layer of 30.4 cm will be placed over the riprap to facilitate the planting of new bank vegetation. To allow for continuity of fish migration upstream, a fish passage would be incorporated into the design. The fish passage would consist of a low flow center channel with a width of 2.4 m and a maximum slope of 10 percent. Large stones would be staggered in the center channel to dissipate energy and to create small eddies and pools for the fish to rest in their passage upstream. The entire grouted stone structure would be sloped to drain toward the center channel to ensure a constant flow of water for fish passage.</p>	<b>NOD</b>	
2003121111	<p>Proposed Parcel Map PM-04-001 Victorville, City of Victorville--San Bernardino</p> <p>The proposed project is the subdivision and development of a total of approximately 11.7 acres. The project will result in impacts to Mohave Ground Squirrel, which are protected under the California Endangered Species Act, requiring issuance of a California Incidental Take Permit.</p>	<b>NOD</b>

2004122027	<p>Site 8 SVE and Biovent System Installation and Work Plan, Beale Air Force Base, California Toxic Substances Control, Department of Marysville--Yuba</p> <p>Site 8 is the Former J-57 Jet Engine Test Cell. Site 8 includes two concrete pads connected by asphalt paving, a former aboveground storage tank, a former septic leachfield, and a surface water drainage ditch. The primary objective of the Soil Vapor Extraction (SVE) removal action is to remove Volatile Organic Compounds (VOCs) contaminants from the vadose zone to minimize or prevent migration of VOCs to underlying groundwater of the surrounding areas. SVE removes VOC contaminants by applying a vacuum to the vadose-zone soils through a series of vertical extraction wells. The extracted vapors will be treated aboveground using granular-activated carbon (GAC) before they are discharged to the atmosphere. The primary objective of the Biovent removal action is to biologically degrade petroleum hydrocarbon contaminants impacting the vadose zone beneath the former Aboveground Storage Tank and to minimize or prevent migration of Total Petroleum Hydrocarbons to underlying groundwater. In-situ Bioventing stimulates the natural biodegradation of petroleum hydrocarbons by supplying oxygen to the existing indigenous microbes. TPH contamination is completely is completely mineralized into harmless byproducts, such as carbon dioxide and water.</p>	<b>NOD</b>

2005028111	Crown Cove Trail Surface Improvements Parks and Recreation, Department of --San Diego Improve a portion of the Crown Cove trail system on the Bay side of Silver Strand State Beach to meet Americans with Disabilities Act (ADA) regulations. The existing surface is mostly a very soft sand material, which does not meet the Federal Access Boards guidelines for a firm and stable surface required for accessible trails. This project will include the placement of stabilized aggregate material within the existing trail bed of 725 linear feet of existing trail to a depth of 4" to 6". A new portion of trail totaling approximately 140 linear feet will be constructed, also with 4" to 6" deep of stabilized aggregate, to connect the existing trail to the exterior loop trail. Mitigation for the new trail extension segment will be to abandon and lightly scarify 4,560 sf of existing trail, which currently bisects an improving coastal plant community. Scarification will take place on nonvegetated areas only. The imported aggregate material may be retained by 4" by 4" wood timbers or by excavation of existing soil within the trail bed. The width of the trail surface will be 36" with one passing area measuring 60" x 60". Additional surface maintenance of 5,200 sf will be conducted on the existing exterior loop trail where soft surface conditions exist.	NOE	
2005028112	Accessibility Modifications at Horse Camp Parks and Recreation, Department of --Riverside Within the Lake Perris Horse Camp, improve one campsite for accessibility. This will include minor leveling of site, with soil surface disturbance of 6 inches or less. Pack campsite area to provide a firm, stable surface. Replace existing campsite furniture with same of accessible design. Improve existing water station for accessibility. Add a ramped horse mounting platform to provide easier mounting on horse. Ramp will be 24-28 inches high with sloped ramp from finish grade to ramp platform. Replace existing portable restroom with one of accessible design.	NOE

2004101048	Laurel Place Senior Housing Project West Hollywood, City of West Hollywood--Los Angeles The proposed project involves three separate elements: renovation of existing buildings, construction of new housing, and a public park. The two-story main house, which currently includes four residential units, would be reconfigured to include five one-bedroom senior apartments, one two-bedroom resident manager's office, and common space. The existing chauffeur's cottage located on the northwest corner of the site would be retained and rehabilitated for use as a single residential unit. The existing four-car garage and bachelor's apartment, located near the rear of the site, would be demolished to make way for 28 units of newly constructed one-bedroom senior apartments and a 21-car subterranean garage. All units are proposed to be approximately 540 sf. An area of approximately 8,600 sf, located on the eastern portion of the site and extending from the front of the main house to the public right-of-way, would be developed as a public park. 	<p>Drive. Enveloping the one-story annex, to the west and south, is the new two-story building. L-shaped in plan, this building, of Type I and Type II construction, includes 17,700-sf of retail space and a 5,600 sf loading area on the first floor and on the second floor a 40,600-sf area for the food-sales market.</p> <p>The parking for the proposed project is in a three-level subterranean garage. The subterranean garage includes 284 parking spaces and four loading bays. Access to the subterranean garage would be off of Bellevue Drive.</p> <p>The primary elevations on South Arroyo Parkway and Bellevue Drive will be preserved, along with the clerestory visible from South Arroyo Parkway and the roof trusses. The new construction, which features brick-and-glass walls and a barrel-vaulted roof, is a contemporary interpretation of industrial design. In addition, the main entrance to the Whole Foods grocery store would include steps, a ramp, and elevators in a recessed terrace facing South Arroyo Parkway.</p>		
2005021059	<p>Bunker Hill Design for Development Amendment Los Angeles Community Development Agency Los Angeles, City of--Los Angeles</p> <p>Proposed amendment to the Bunker Hill Redevelopment Project's Design for Development Guidelines. Proposed changes to the DFD would result in a FAR of 6:1 for the Redevelopment Project. The proposed additional development is intended to realize the maximum objectives of the Downtown Strategic Plan (DSP) set forth for Bunker Hill, approved by the City Council and the City of Los Angeles in 1994. Among the objectives cited in the DSP are to establish vibrant neighborhoods containing a variety of housing types in the district, to promote a pedestrian network within a framework that accommodates large buildings and variety of open spaces, to link Bunker Hill and surrounding neighborhoods and districts through a coherent pedestrian network, and to link Bunker Hill to the region through the rail transit network in Downtown Los Angeles. The amended DFD will also provide additional guidance on streetscape, signage and other urban design features.</p>	<b>NOP</b>	03/14/2005
2005021056	<p>Vesting Tentative Tract 6410 Bakersfield, City of Bakersfield--Kern</p> <p>A vesting tentative tract map containing 140 lots for single family residential purposes, a park lot, sump lot and drill site on 65.64 acres zoned R-1 (One Family Dwelling). The application includes a request for reduction of lot depths for one lot adjacent to a freeway reduction of minimum street frontage for one lot, reverse corner lots, a less than standard curve radius and a waiver of mineral rights.</p>	<b>Neg</b>	03/14/2005
2005021058	<p>Dillon Road Widening Improvements Project Coachella, City of Coachella--Riverside</p> <p>The proposed improvements include the widening of the existing Dillon Road roadway from two to four lanes, the installation of median curb, the installation of a new traffic signal at Harrison Place, and the interconnection of two signals. The proposed improvements will be constructed within the existing 80 foot right-of-way. The termini are from just south of SR 86 to the southwest, and just north of I-10 to the northeast. The purpose of the proposed improvements is to provide motorists with a safe and uniform street width between SR 86 and I-10. This section of street serves as part of the I-10 / SR 86 interchange, as it is the only means for westbound I-10 traffic to proceed southbound on SR 86 and for northbound SR 86 traffic to proceed eastbound on I-10. The proposed road improvements are necessary to avoid major traffic congestion and improve safety. The project has</p>	<b>Neg</b>	03/14/2005

	Village will become a comfortable place to gather, shop and stroll.		
2004031114	Church of the Woods San Bernardino County Land Use Services Department --San Bernardino Tentative Parcel Map 16155 (Map Act Exception) to create 5 parcels and a Conditional Use Permit to establish a Church and related facilities.	<b>NOP</b>	03/15/2005
2004081187	Surface Mining Permit and Reclamation Plan PMR 03-001 Tulare County Resource Management Agency --Tulare Special Use Permit for Surface Mining - Surface Mining Permit and Reclamation Plan.	<b>NOP</b>	03/15/2005
2005021066	College of the Desert Facilities Master Plan Desert Community College District Palm Desert--Riverside There are currently 49 buildings on campus. The project proposes renovation of 26 buildings, removal of 17, and construction of 11 new buildings on the campus; resulting in a total of 43 buildings on campus; an increase of 133,422 sf in assignable square footage.	<b>NOP</b>	03/18/2005
2005022068	Tentative Tract Map 37-46/White Mountain Estates Mono County Planning Department --Mono A Tentative Tract Map application is being processed for up to (not to exceed) 58 individual lots in the southern Chalfant Valley in Mono County. The proposed Tract Map (TM 37-64) would subdivide a 29-acre parcel (APN 26-240-10) into 39 individual lots that range in size from .50 to .96 acres. These lots would be served by a community water system and individual septic systems. The 19 lots on the upper portion of the subdivision (APN 26-240-09) will probably be reduced due to Alquist-Priolo (earthquake fault) constraints.	<b>NOP</b>	03/15/2005
2005022073	Parkway Boulevard Grade Separation Project Dixon, City of Dixon--Solano The proposed project would extend Parkway Boulevard from its existing eastern terminus (near the intersection of Parkway Boulevard and Valley Glen Drive) to a western terminus at Pitt School Road, with a grade separated over-crossing structure over the Union Pacific Railroad tracks and Porter Road. The Parkway Boulevard roadway is planned as a 80-foot (pavement width from face of curb to face of curb) wide minor arterial, striped for two travel lanes (one lane in either direction) with a raised median, Class II on-street bicycle lanes, sidewalks, and a design speed of 45 miles per hour. Parkway Boulevard and the over-crossing structure would be constructed to be wide enough for an ultimate four-lane facility. This project is identified in the circulation element of the Dixon 1993 General Plan.	<b>NOP</b>	03/16/2005
2005021061	Selyem Grading Permit; ED03-194 (PMT2003-00984) San Luis Obispo County --San Luis Obispo Request for a Grading Permit by Douglas Selyem to allow for the grading of a pad and driveway to accommodate a single family residence. A total of approximately 0.4 acres will be disturbed with an estimated 1,160 cy of fill imported to the site in order to create the pad.	<b>Neg</b>	03/15/2005

2005021067	Seraphina Tract Map / TTM 32346 Temecula, City of Temecula--Riverside The project proposes to subdivide Assessor Parcel Numbers 957-080-014 and 957-080-019 into 71 legal parcels, each with a minimum lot size of 7,220 square feet. The properties total 28.6 acres.	<b>Neg</b>	03/16/2005
2005022069	Tentative Subdivision Map - Birch Street Village Willows, City of Willows--Glenn The project entails development of a residential subdivision, containing 34 lots ranging from 0.14 to 0.32 acres each, on approximately 7.92 acres of property in the City of Willows. The project also entails the construction of utility, infrastructure, and other features associated with a residential neighborhood.	<b>Neg</b>	03/15/2005
2005022070	Construction of Community Water Well #33 Madera, City of Madera--Madera A proposal by the City of Madera to construct a community water well. The approximately 15,000 sf parcel is located near a site indicated on the water system master plan as a potential location for a new community well. These locations are presented for master planning purposes only, with final locations to be determined during final design stages for each project. This project involves installation of a community water well to serve an area designated by the General Plan for residential development. It will also connect to a looped water system that serves the adjacent subdivision and provides improved water pressure and fire flows for the area. A consistency findings with the General Plan was made by the City planning commission for acquisition of this site and construction of a new one on June 10, 2003, with approval of this tentative subdivision that will create the subject parcel.	<b>Neg</b>	03/15/2005
2005022071	Use Permit Application UP-5-04 and Parcel Map Application PM-16-04, by Suites Development Redding Redding, City of Redding--Shasta The proposed project is to construct two 3-story hotels, consisting of 148 rooms and 73,287 sf, restaurant on a 6.2-acre site located south of the I-5 / SR-273 interchange. The applicant is also requesting the property to be divided into three separate parcels.	<b>Neg</b>	03/15/2005

1992013033	Noble Conditional Use Permit Modification CUP-19-94M Humboldt County Planning Department Eureka--Humboldt The original project approved the following: "the annual extraction of up to 200,000 cubic yards of river-run sand and gravel aggregate from a 3-mile stretch of the Van Duzen River near its confluence with Yager Creek. The extraction method will be "bar-skimming" - where the upper portion of exposed point bar materials is scraped horizontally to a depth no less than one foot above the elevation of the live stream. Mined materials will be transported to five stockpiling sites where they await further transport to other sites for processing. No on-site processing is proposed. Stockpiled material will transit the site either by railcar along the Northcoast Railroad Authority's Eel River Canyon line, or by truck over one of three routes - River Bar Road, South Fisher Road, or Odd Fellows Park Road - onto State Highway 36." The modification involves the addition of processing of materials mined on-site including crushing, screening and washing. No increase in extraction is proposed. The original permit was approved in 1997.	<b>SIR</b>	03/30/2005

	the currently unused treatment facilities for a portion of the prison's wastewater flow.		
2005028123	Transfer of Coverage to El Dorado County APN 25-451-16 (Keehan) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 1,029 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	<b>NOE</b>	
2005028124	Bollards, Gates and interpretive Panel Installation (04/05-SD-20) Parks and Recreation, Department of --San Diego This project consists of the protection of 15 standpipes from damage. The 25 excavations for this part of the project will be approximately 10"Wx18"L next to standpipes. Previous development has occurred. The 2nd part of this project an interpretive panel would be installed in the campfire center next to drinking fountain 2 excavations 1"Wx2"D for panel posts would be necessary. The 3rd part of project is the installation of an exit gate at Ponto State Beach to prevent overnight camping this would require 2 excavations 2"Wx3"D.	<b>NOE</b>	
2005028203	Cottonwood Canal Headgate Pipeline Replacement Yolo County Flood Control and Water Conservation District --Yolo The proposed project would replace a collapsed pipe that serves the Cottonwood Canal Headgate. The Cottonwood Headgate controls irrigation water flow to approximately 8,245 acres of farmland in the District's services area. Currently, a portion of the pipe or culvert section of the headgate structure has collapsed and presents a safety hazard to vehicular traffic as well as people operating the headgate. In addition, the collapse has limited the ability of the District to serve its existing customers that rely on deliveries that are distributed through the Cottonwood headgate. The replacement of the pipeline/culvert would require excavating the existing 48-inch diameter corrugated metal pipe at the back of the existing headgate structure and assessing its condition. Based upon the findings of the investigation, the pipe will be replaced, or temporarily repaired, to ensure its integrity during the 2005 irrigation season. Repair of the pipe and backfilling with lean concrete fill. Replacement of the pipe would involve removal of the existing pipe and connection of a new 48-inch diameter corrugated metal pipe to the back of the headgate structure. The new pipe would be a total of 52 feet long. The repaired facility would be backfilled with native material or Caltrans Class II aggregate base.	<b>NOE</b>	
2005028204	Yolo Central Canal Culvert Replacement at County Road 88 Yolo County Flood Control and Water Conservation District --Yolo The proposed project would replace the existing culvert on the Yolo Central Canal beneath County Road 88. This replacement is intended to restore safety to vehicular traffic and increase capacity to more efficiently serve existing service demands of farmers in the facility's current service area encompassing approximately 7,995 acres. The proposed project is needed because the existing corrugated metal culvert under County Road 88 collapsed. Temporary provisions to maintain flow in the	<b>NOE</b>	

## CEQA Daily Log

<b><u>Documents Received on Monday, February 14, 2005</u></b>			
	<p>canal and allow traffic movement on CR 88 have been installed, but a permanent facility is needed in order to ensure continued safe operation of the facility. In addition, the proposed project would, at the request of the County, lengthen the passage of the canal under CR 88 in order to facilitate the turning of trucks on CR 88.</p> <p>The proposed project would replace the canal's collapsed corrugated metal pipe culvert with a reinforced concrete box culvert and, as mentioned, would be lengthened to better accommodate truck traffic in the area. The capacity of the culvert prior to its collapse was approximately 120 cfs. Construction of the new concrete box culvert would increase this capacity to 150 cfs. It is important to note that the proposed increase in capacity will improve the efficiency and speed of delivery of water supply to existing farmers downstream of the facility, but it will not result in an expansion of developed farmlands, acquisition of new customers, or an increase in the facility's current service area.</p> <p>Construction of the proposed project will involve the demolition of the existing culvert and reinforced concrete headwalls and the installation of pre-cast concrete box sections and the construction of new reinforced concrete headwalls. The roadway section will be replaced over the box culvert to match existing grade lines.</p>		
2005028205	<p>Frederick's Flume Gate Installation Yolo County Flood Control and Water Conservation District --Yolo</p> <p>The proposed project would modify an existing flume structure to replace existing stop-log stanchions within the flume with an automated gate. The District's Ditch Tender must currently manually remove boards in the stop-log structure to regulate flow in the flume. This will improve the ease of operation and will allow more efficient and safe regulation of flows in the flume.</p> <p>The District proposes to replace the existing flow control/monitoring structure within the flume to allow the District to better utilize the existing capacity of the flume to meet the service demands of the existing farmers downstream and to incorporate provisions for accurately measuring the flow to allow the District to improve the overall management of its water delivery system. The modification will incorporate an automatic flow gate with provision for accurate flow measurement. The gate and controller will be operated by solar power. All construction activities for the project will take place within the existing flume structure on existing canal embankments and access roadways. Project construction activities will not disturb previously undisturbed areas.</p>	<b>NOE</b>

	transportation plan covering Santa Cruz County.		
2004111034	Desert Village Unit #6 Tentative Subdivision Map and Change of Zone 04-05, El Centro El Centro, City of El Centro--Imperial The proposed project involves the approval of a change of zone from CT, tourist commercial to R-1, single family residential; R-3, multiple family residential; and CG, General Commercial and tentative subdivision map. The site includes 55.6 acres. The scale of the development consists of 95 single-family residential homes, 2 multi-family apartment sites (5.6 and 4.8 acres), 3 general commercial parcels (1.7, 2.7, 2.9 acres). All will be developed in phases.	<b>EIR</b>	04/01/2005
2002021060	Anza-Borrego Desert State Park Parks and Recreation, Department of --San Diego, Riverside, Imperial To meet requirements set forth in Section 5002.2 of the Public Resources Code and Section 4332 of Title 14 of the California Administration Code, The California Department of Parks and Recreation is preparing a General Plan for the park. This plan will delineate a number of resource management zones and a set of goals and guidelines will be developed for each zone, which will guide park management, specific project management, and implementation. These goals and guidelines will address recreational, operational, interpretive, and resource management opportunities and constraints.	<b>FIN</b>	
2005021068	Resource and Facilities Master Plan Kern Community College District Bakersfield, Porterville, Ridgecrest--Kern, Tulare The Project involves a variety of construction projects associated with the Resource and Facilities Master Plan for the Kern Community College. The projects include new construction and remodeling of existing buildings. No new construction will occur outside of the existing campus footprints.	<b>NOP</b>	03/16/2005
2005021070	Habitat Conservation Plan Covering Certain San Luis Obispo Coast State Parks and Oceano Dunes SVRA Parks and Recreation, Department of Morro Bay, Grover Beach--San Luis Obispo Habitat Conservation Plan covers western snowy plover, California least tern, California red-legged frog, Morro shoulderband snail and ten state-and federally-listed plant species in six California State Park Units: Estero Bluffs, Morro Strand State Beach, Morro Bay State Park, Montana do Oro State Park, Pismo Dunes Natural Preserve, and Oceano Dunes State Vehicular Recreation Area.	<b>NOP</b>	03/17/2005
2005021069	CUP/VA 04-037 Los Angeles County Department of Regional Planning --Los Angeles Applications for a CUP to allow the construction and operation of a two story commercial retail/ office center (41,950 s.f.) with a subterranean parking basement for 113 parking spaces. There will also be 1,600 square feet of usable outdoor area where visitors and employees can lounge and 25 open parking spaces provided on the upper level. There will be an 8" thick concrete block wall up to 6' tall along the west and north side of the site. Dense landscaping with decorative fountains will be placed along the south and southeast near the driveway. Two loading/ unloading spaces are also proposed near the driveway entrance.	<b>Neg</b>	03/16/2005

	site.		
2000042015	Freshwater Creek Recreational Dam Humboldt County Freshwater--Humboldt The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Ms. Ann Glubczynski representing County of Humboldt, Department of Public Works. The applicant proposes the annual installation and removal of a seasonal dam and fish ladder on Freshwater Creek in Freshwater Park.	<b>NOD</b>	
2004041032	Proposed Tentative Tract TT-04-018 Victorville, City of Victorville--San Bernardino The project involves the subdivision and residential development of approximately 25 acres in the City of Victorville. The project will result in impacts to Mohave Ground Squirrel, a species designated as threatened under the California Endangered Species Act. The Permit referenced above as issued by CDFG authorizes incidental take of the species under CESA that may result with implementation of the project. Issuance of the permit by CDFG is based on the finding that, among other things, all impacts on the species resulting from the authorized take will be minimized and fully mitigated under CESA through various avoidance and other mitigation measures, including the acquisition and permanent preservation of approximately 25 acres of habitat for the species.	<b>NOD</b>	
2004051123	Simulation of Natural Flows in Middle Piru Creek Project Water Resources, Department of --Los Angeles, Ventura California Department of Water Resources proposes implementation of modified water operations guidelines of Pyramid Dam to simulate the natural hydrology of middle Piru Creek to the extent operationally feasible and consistent with safety considerations. The primary objective of simulating the natural hydrological regime of middle Piru Creek is to avoid the incidental take of a federally endangered species, the arroyo toad by State Water Project operations. A second objective of the proposed project is to allow State Water Project water deliveries to United Water Conservation District via middle Piru Creek to Lake Piru.	<b>NOD</b>	
2004111092	Cuyama Curve Realignment Caltrans #5 --San Luis Obispo Correct horizontal and vertical curves at two locations along Route 166 from 3.9 km to 5.8 km east of and from 7.4 km to 6.1 km east of Gifford Creek Bridge.	<b>NOD</b>	
2004112027	RDHC Wetland Enhancement Project CUP-04-09 Humboldt County Planning Department --Humboldt The project area encompasses +/- 50 acres of lands formerly known as the Vance Dairy. The entire area lies within the State's permit jurisdiction for the CDP, but a Conditional Use Permit from the County is required for Fish & Wildlife Management and Wetland Restoration under §313-7.1, HCC. The project seeks to develop two ponds (1' deep by 13 and 35 acres) for winter birding that can be used for stock watering in the spring and summer. Also included in the project is the repair of an existing levee on Salmon Creek. All aspects of the proposal will require +/- 44,000 cy of grading and fill. Fill not used directly in the levee repair or pond levee	<b>NOD</b>
